Accident & Incident Report Form

Incidents can range from minor near misses to severe accidents resulting in injuries, fatalities, or significant damage.
Child Accident : Unintended injury to a child, e.g. through play or lack of spatial awareness
Child Incident : Intended injury to another child, this includes when a child is acting because of an emotional response.
Incident : Any unplanned event that disrupts normal operations or poses a risk to employees, equipment, or the environment
Accident : A discrete, identifiable, and unintended event arising out of or in connection with work that causes physical or psychological injury.
Near Miss : An event that does not cause injury or damage but has the potential to do so, serving as an early warning of possible future accidents.
An incident also legally encompasses acts of non-consensual physical violence committed against a person while at work.
